New 3500 epos system

The professional touch epos system that does it all

Solid aluminium casing, high quality components and a true flat screen option – all at a competitive price

3500 is a new generation epos system with small footprint, modern sleek design and extra strong cast aluminium construction throughout. If you need a competitively priced, high performance full function epos system that comes with a wide range of extras and variants - this is the model for you.

- Extra reliability and performance with a clever integrated fanless cooling design
- With full 1 year warranty
- True flat 'no bezel' resistive touch screen for harsh environments (to IP55) or standard screen options – with high grade LED screen and upgraded touch systems
- Small footprint but high stability, with pole mount and accessory point to rear
- Maximum performance with quad core 2GHz processor and big 4GB RAM as standard – easily capable of running Windows 10
- Quieter, faster and more reliable - no moving parts, 64MB solid state disk, fast & fanless design
- Meet clients requirements with extras including wall mount kit, MSR, Dallas reader, VFD or TFT customer screen options

Options available

How to order

Order base unit plus any options e.g. 3500 True flat screen unit + Customer VFD + Wifi + MSR

3500 specifications and performance data

System controller		Power supply	
Controller Board	J1900 latest version	Type	External, inline switch mode
Processor	Quad core Celeron 2GHz	Output cable	1.5M DC cable with male jack
Hard Disk	64GB quality SSD	Output power	DC12V/7A
RAM	4GB quality RAM	Input power	100-250V/50-60Hz
Screen		Input cable	1.5M IEC with UK 3 pin plug
LCD screen	Industrial grade 15" 1024 x 768	Operating Systems	
Brightness	250cd/m2 LED backlit	No O/S	Supplied with Win 7 for licensing
Splashproofing	Standard or True flat, no bezel	Win 10 IoT	Available soon
Bezel options	Standard or true flat, no bezel	Size & weight	
Response time	5 milliseconds	Unit	36x24x32cm (lxdxh) 5.2kg
Touch control	5 wire resistive, 35 million touch life	Packaged size	43x27x42cm (lxdxh) 6.5kg
Cooling		Warranty	
Fanless	Noiseless aluminium heat sink	Period & terms	24 month RTB
Inputs & Outputs			
Serial	2 x 9 Pin D Male		
LAN	1 x RJ45 female 1000Mbps		
USB	4 type 'A' Female Ports		
VGA	VGA Female Port		
Parallel	1 x LPT Female		
Audio	2 Ports, Mic in, Line out		
DC Power	Female DC Jack to suit PSU		
Cash Drawer	Use printer output or external adapter
